

PAUL F. RUSYN
OF COUNSEL

BACKGROUND

Paul focuses his practice on the preparation and prosecution of electronic and electrical patent applications. He also counsels clients on various intellectual property matters including patentability, invalidity, and infringement opinions, patent enforcement, intellectual property related due diligence and licensing.

EXPERIENCE

Paul F. Rusyn is a registered patent attorney and focuses his practice on the procurement of patent rights in various high technology areas, including specific expertise in analog circuits, semiconductor processes and circuits, memory systems and devices (e.g., DRAM, SDRAM, FLASH, and SRAM), medical devices, wireless communications systems such as OFDM systems, fuel cell systems, encryption systems, optical systems, and computer architecture. Paul also provides client counseling in intellectual property matters such as patentability, infringement and invalidity opinions as well as in due diligence and enforcement matters. Before joining the firm, Mr. Rusyn worked for two nationally known intellectual property law firms, and also worked as an engineer for nearly five years designing digital and analog circuits for control-related applications.

AFFILIATIONS

Paul is admitted to the Washington State Bar and is registered to practice before the U.S. Patent and Trademark Office. He is a member of the Washington State Patent Law Association and the Intellectual Property Section of the King County Bar Association.
